The dual component handles we use on our Sensoplus ESD pliers and cutters range have been specially designed to be ergonomic. They are wide, soft, comfortable and slip free for controlled and fatigue free handling over extended periods.

precision

Pliers & Cutters

The C.K Precision range of pliers and cutters has been designed for use on intricate work wherever a small, light, yet high quality tool is required.

The plastic coated handles are slim for easy use when access is limited.

3703 6 piece pliers set

Item Number	
T3703	

Contains: T3773 Side Cutter, T3780F Side Cutter, T3799F Oblique Cutter, T3772 Snipenose Plier, T3767 Snipenose Plier, T3770 Flatnose Plier.

We offer cutters with tungsten carbide edges integrated into the head to cope with the extreme demands of cutting extra hard or tough materials e.g. piano, nickel and diode wires, that are used increasingly commonly in today's electronics and aerospace industries.
